Water Stopper

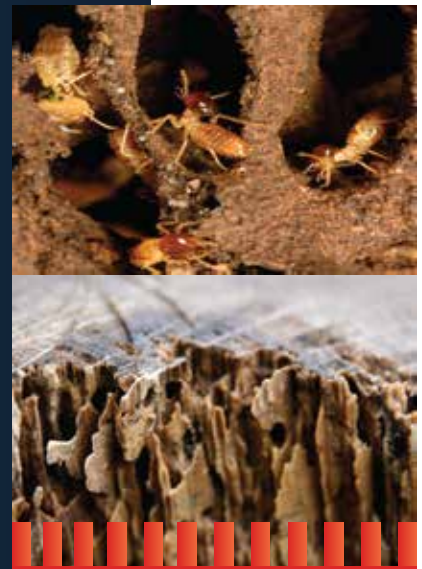

OUR HISTORY

We desire to achieve our objective by offering our clients prompt, reliable and effective products & services. We commit ourselves for applying environmentally friendly methods and insecticides for achieving the pest control through taking advantage of the latest technology. We are improving our products & services continuously. Despite of high technical parameters, prices are economical!

TERMITE TREATMENT

INFO.

Promist pro is petroleum based anti termite solution, when applied creates a non-detectable treated zone, allows free entry of termite into treated area which act as a "Killing field" exposing the termites to lethal dose of the product. Exposed termites stop feeding and also transfer the molecules to the other members of the colony which do not come in direct contact of the treated area. this leads to reduction in population termites. MarFlex Application Technique are besides making tiny ways through the walls and structures making the structures weak, Termites enter through the foundation. Promist Pro Solution to treat all termites' colonies.

OUR WAY OF WORKING

MarFlex Latest innovation from France containing novel ingredient "Fipronil" for efficient and absolute termite control. MarFlex ensures intensive and total control against all types of termite and wood boring insects.

Directions For Use:

Make spray solution according to the following method.

MARBLEX	Mix in litre water	Area To Be Treated	
		Sq Meter	Sq Feet
1 litre	250	50	540

Our services

Marblex provides a selection of high-quality Primers and Sealants. Whether you're installing a new membrane or fixing flashing around openings and penetrations, our offerings ensure long-lasting performance and cost efficiency. For detailed application usage and instructions, please consult the Technical Data Sheet.

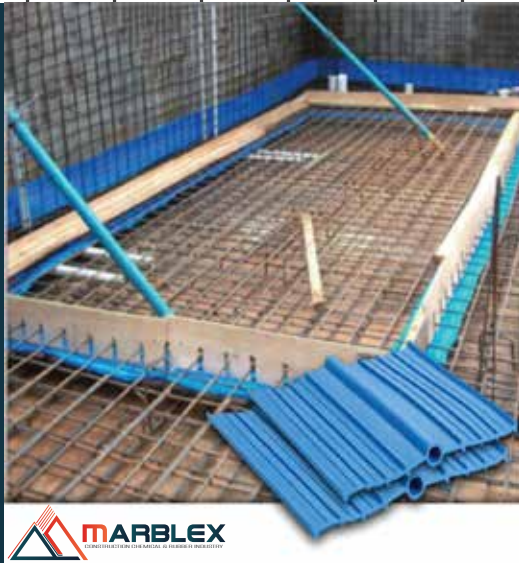

OUR OBJECTIVE

Outstanding long-term adhesion and compatibility with various substrates and base plies set our product apart. It boasts exceptional physical characteristics and demonstrates enduring performance against weathering over time. Additionally, it exhibits flexibility at low temperatures and resistance to punctures and tears.

Water Stopper

Introducing Marblex Water Stopper - Your Ultimate Solution for Leak Protection! Are you tired of dealing with water leaks and damage in your home or office? Look no further than Marblex Water Stopper! Our innovative product is designed to provide unparalleled protection against leaks, ensuring a dry and secure environment. Crafted with precision and durability in mind, Marblex Water Stopper is easy to install and guarantees a tight seal to prevent water seepage. Whether you're safeguarding your living space, business premises, or industrial area, trust Marblex to deliver top-notch leak prevention. Don't let water damage disrupt your life – choose Marblex Water Stopper and enjoy peace of mind.

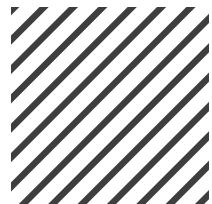

“Our experience supports our quality.”

Effective Termite Control: Marblex specializes in efficient termite control, protecting your property from infestations.

Advanced Waterproofing: Our chemicals create a powerful shield, keeping structures dry and resilient against moisture.

Durable Membranes: Marblex's premium membranes provide lasting protection against water penetration.

Innovative Water Stopper: Marblex Water Stopper ensures hassle-free installation, delivering a secure seal to halt water seepage and maintain a dry environment.
